

**Pest and Rodent Control Log for:** \_\_\_\_\_

Month: \_\_\_\_\_

**Pesticides should not be used in or near storage facility.**

Date: (Week of)	Insect Management:	Rodent Management:	Location of Traps	Disposal	Initials
	The use of insect monitoring devices, bait, insect dust formations, and/or crevice applications of insect management material.	The use of multi-catch traps and or tamper resistant rodent bait stations. Rodent bait stations should be inspected, cleaned and maintained with fresh bait as necessary.	<b>Helpful Tips for Locations:</b> 1. Placing traps along wall spacing them 1-2 inches apart. 2. Placing traps along runway and not in corners.	<b>Helpful Tips on disposing:</b> 1. Wear gloves. 2. Place mice in a Ziploc bag/trash bag. (Sealed tightly) 3. Place the bag in trash container that is sealed tightly.
